ACTIVE MARKET BUT ARTIFICIAL

Whipped Into Activity; Copper Strong; Old Dominion Makes Another Good Gain.

NEW YORK, January 4.—The stock market today had the appearance of being whipped into activity by artificial means, owing to extreme irregularity in the constancy of its movements. Upward and downward fluctuations were constant. Northern Pacific was a force in the buying movements on rumors revived by a coming extra disbursement for which there was no official sanction. Reading on the other hand was affected by profit taking. A number of industrial had prominent strength, including coppers. Anticipation of a favorable bank statement was a factor in the buying of stocks, but the tone of the market persisted to the closing.

TWO KILLED BY DYNAMITE EXPLOSION

SPRAGUE, Wash., January 4.—Two laborers were killed and eight badly injured by a dynamite explosion at a construction camp on the Portland & Seattle railway, twenty-five miles south of Sprague yesterday. The men were all Bulgarians and were thawing dynamite on a kitchen range.

The Mustache Had to Go.

A man whose chief claim to good looks was a luxurious brown mustache not long ago applied for a place in a wholesale dry goods house. He came well recommended and the manager was willing to employ him.

"Before settling the matter, however," said the manager, "I wish to speak a few words on a very personal subject. I refer to your mustache. If you accept this position you will have to keep that shaved off. One of your chief duties will be to dictate letters. Our stenographers claim that a heavy mustache like yours prevents clear speech and that the difficulty in understanding is responsible for their making many mistakes. Once before a man with a mustache like yours held this job. Upon the united request of the stenographers he had to cut it off. I must ask you to do the same thing."

The man eyed his crowning glory regretfully, but as he needed the job worse than he did the mustache he began work the next day with a smooth face.—New York Sun.

It is very important and in fact it is absolutely necessary to health that we give relief to the stomach promptly at the first signs of trouble—which are belching of gas, nausea, sour stomach, headache, irritability and nervousness. These are warnings that the stomach has been mistreated; it is doing too much work and it is demanding help from you. Take something once in a while; especially after meals: something like KODOL for Dyspepsia and Indigestion. It will enable your stomach to do its work properly. Sold by Hanna's drug store, 228 Broad St.

FRAUDS IN OLD BOOKS.

Ancient and Rare Volumes Doctored, Restored and Imitated.

A well known collector acquired what he took to be a book published by Aldus in the year 1489. He paid \$1,000 for it and believed that it was an original Aldus, because the publisher's press mark, a dolphin coiled round an anchor, appeared upon it. When the book was shown to an expert it proved to be beyond a shadow of doubt a modern antique—that is to say, it was simply a copy of the original work printed by an ingenious book faker. So clever was the imitation that only an expert could tell it from the original and rare book. Scores of persons during recent years have bought facsimiles of rare works under the impression that they were getting the originals. Dickens' "Sunday Under Three Heads" has been faked many times and sold as original to collectors who no doubt treasure them as rarities. Genuine copies of this little book are worth a good sum, and some unscrupulous dealers, taking advantage of the circumstances, have had it reprinted and palm off the copies on unsuspecting bibliomaniacs for the genuine first edition.

Many men make a living by "doctoring" old and rare books for unscrupulous dealers. These men are adepts in the art of book restoring and are quite able to make good any part of an imperfect copy. For instance, if a rare book has a leaf missing it is handed over to a restorer, who reprints the page with battered type, the paper upon which it is printed being afterward discolored with chemicals or tobacco water in order to give it the true antique hue.

The first folio Shakespeare is, of course, of great value, and it is safe to say that every possible deception has been practiced in fitting up copies of this work for sale. At one time the manufacture of first folio Shakespeares was quite a trade. A first folio having several leaves missing had leaves inserted from the second folio, while in one case the entire play of "Cymbeline" was reprinted and inserted in a first folio. The "faked" pages were so cleverly done that several experts were at first unable to detect them when turning over the pages of the work in question. Book restorers, as a rule, are most ingenious artists, and they can produce an imitation of a page of a rare book which will deceive hundreds of collectors. One particular restorer has "doctored" more than a thousand old books during the last two years, producing pages in facsimile and supplying colophons or decorated capitals. There is not a thing wanting to make a book complete that this man cannot skillfully "fake."—Brooklyn Eagle.

POINTED PARAGRAPHS.

Don't bet on your popularity. About the hardest thing in this world to handle is a jealous disposition. When some people get into trouble they enlist a lot of people to help them out.

If you have to keep demanding your rights all the time you are asking for something not coming to you.

What a comfortable world this would be if people didn't take such delight in making trouble for each other!

A doctor has two classes of people to contend with—those who swear by him and those who swear at him.

How you resent it when any one interferes in that which you consider "your business!" And how often you interfere with the business of others!—Aitchison Globe.

The Poet and the Beauty.

One of the finest houses in southern England is Penhurst Place, the birthplace of Sir Philip Sidney. Under the trees of its park Edmund Waller paid his addresses to the haughty Lady Dorothea, whom he celebrated as Sacharissa. But the heart of Lady Dorothea Sidney—who was the most beautiful woman of her time—was untouched by Waller's amatory verses, and she rejected the poet in favor of the Earl of Sunderland. Many years afterward the countess met Waller and, reminding him sentimentally of the old days at Penhurst, asked him when he would again write verses about her. "When, madam," said the poet rudely, "you are as young and as handsome as you were then."

Properties of Chlorine.

Chlorine is a greenish yellow gas with a disagreeable smell. It is soluble in cold water, only slightly soluble in hot water. It destroys color in wet fabrics and is also a strong disinfectant. Both of these properties are said to be due to its power of decomposing hydrogen compounds, such as water, combining with the hydrogen and liberating oxygen, which in a nascent state oxidizes coloring matter, rendering it colorless. As a disinfectant it oxidizes the germs of disease and is in consequence largely used for this purpose.

Strange Mistake.

Old Mrs. Jones entered the drawing room unexpectedly and spoiled a very pretty tableau.

"I was just whispering a secret in Cousin Jennie's ear," explained Charles.

"I'm sorry," said the old lady gravely, "that your eyesight has become so bad that you mistake Jennie's mouth for her ear."—London Tit-Bits.

Her Line.

"Now our cook has gone away I don't know what we shall do."

"I thought you told me your wife was such a good cook?"

"Not a bit of it. I told you my wife was an expert in broils, roasts and stews."—Baltimore American.
